

How Ehsas Scholarship helped me across my Journey of Graduation?

My Success Story

I am Fatima Sajid, currently enrolled in MS program in chemistry department LCWU. I belong to a middle class family and like most of other people my father lost his job due to COVID-19 but thanks to Ehsas scholarship, financial barriers couldn't stop me continuing my education. It helped me to achieve my primary goal in life to not be dependent on my parents for my education. Besides my academic fee, I used the scholarship to gain skills and not only I am able to be an official graduate in chemistry with 3.57 CGPA. Empowered by the support of the Ehsas scholarship, I embarked on my MS program with unwavering determination and a steadfast commitment to excel against all odds.

I appreciate the initiative of Ehasas Scholarship and the efforts of staff working hard to facilitate students in Financial Aid Office, LCWU.

Regards

Fatima Sajid
